

BHADMUS IBRAHIM

AI Quality | Technical Writing | Data Annotation | Software Engineering

Lagos, Nigeria | +234 806 084 9929 | ibrahim.bhadmus1234@gmail.com | [linkedin.com/in/ibrahim-bhadmus-08a997428](https://www.linkedin.com/in/ibrahim-bhadmus-08a997428) | github.com/007Jamal | ibrahim-ai-evaluation.vercel.app

PROFESSIONAL SUMMARY

AI Quality and Technical Writing professional with a B.Sc. in Computer Science and hands-on experience across AI evaluation, data annotation, cybersecurity, software development, documentation, and administrative support. Skilled in reviewing AI-generated content for grounding, factuality, instruction following, relevance, naturalness, contradictions, and usefulness; applying annotation criteria consistently; and translating technical information into clear documentation and practical guidance.

CORE COMPETENCIES

AI Evaluation & Quality Review	Data Annotation
Prompt & Task Analysis	Grounding & Factuality Checks
Technical Writing	Documentation
Research & Information Synthesis	Quality Assurance
Creative Writing	Cybersecurity
Software Development	Administrative Support

PROFESSIONAL EXPERIENCE

AI Quality Assessment and Evaluation | Mercor

2025 – Present

- Review model-generated responses against defined criteria including accuracy, instruction following, relevance, and usefulness.
- Identify unsupported inference, contradictions, and quality issues; provide concise, evidence-based feedback.

Data Annotation Specialist | Outlier

2025 – Present

- Complete annotation tasks using project-specific labeling criteria and written instructions.
- Maintain consistency across labels, edge cases, and ambiguous examples while documenting decisions.

AI Evaluation and Data Work | Handshake

2025 – Present

- Participate in AI-related assessment and data work while applying task instructions carefully.
- Support consistent evaluation and information handling across structured tasks.

Virtual Assistant | ProSwift Ambulance Services

2025 – Present

- Provide day-to-day virtual and administrative support, keeping information, requests, and routine tasks organized.
- Handle structured administrative work with attention to accuracy, communication, and follow-through.

Cybersecurity Intern | NPF Microfinance Bank

April 2025 – October 2025

- Supported cybersecurity department operations in a financial services environment.
- Gained practical exposure to system protection, monitoring, and network security.

Product Development and Graphic Design Intern | Digital Age Consults

2023 – 2024

Vice President | AWS Student Builders Group, LASU Chapter

2023 – Present

- Contribute to student technology community activities and peer learning around cloud and software development.

- Support digital projects and initiatives within the university chapter.

SELECTED PROJECTS

Grimoire

Software Project

- Developed a long-form novel writing system with manuscript editing, canon management, worldbuilding, plot and scene planning, AI assistance, consistency checks, and export functionality.

Phishaman

Software Project

- Developed a machine-learning-based phishing detection application focused on Nigerian internet users, connecting software development, cybersecurity concepts, and data analysis.

TECHNICAL SKILLS

AI & Data: AI Evaluation, Data Annotation, Prompt Analysis, Quality Review, n8n, Zapier

Writing & Research: Technical Writing, Documentation, Creative Writing, Research, Editing, Information Synthesis

Engineering: Python, JavaScript, TypeScript, React, Node.js, PHP, MySQL, Git

Cybersecurity & Networking: Linux, Wireshark, Nmap, Kali Linux, OSINT, Cisco Networking, Virtualization

Tools: Google Workspace, GitHub, Bash, Administrative Tools, Documentation Workflows

EDUCATION

B.Sc. Computer Science | Lagos State University, Ojo, Lagos

Expected 2026 | Second Class Upper

Effective Writing and Communications | Nigeria Institute of Journalism

ADDITIONAL INFORMATION

Open to AI quality, data annotation, technical writing, research, and related remote opportunities.
